WORK EXPERIENCE

BUSINESS ANALYST | Walmart Canada

Mar 2024-Present

- Analyzed key pain points causing late delivery by surveying 10 Walmart stores, resulting in the business case documentation and introducing 2 key features to improve order management.
- Collaborated with 2 UI/UX designers by documenting low-fidelity mocks using Balsamiq, resulting in the building of a friendly UX that significantly improved user adoption.
- Worked closely with the development team to translate business needs into user stories, using Jira, ensuring development met customer needs, leading to quicker feature releases.
- Supported Agile ceremonies such as sprint planning and backlog grooming, aligning development efforts with evolving business goals.
- Trained Omni associates using hands-on training sessions and instructional materials, resulting in increased system adoption shortly after launch.
- **Key Achievements:**
- Drove key system enhancements by analyzing pain points from multiple store locations and developing a business case that led to the introduction of high-impact features, improving order fulfillment efficiency.
- Led onboarding efforts by creating training materials and conducting hands-on sessions for team members, resulting in stronger system adoption and a noticeable drop in post-launch support needs.

BUSINESS ANALYST | ESAMI NIG.LTD (IT CONSULT.)

Jan 2021-Dec 2023

- Conducted interviews to gather initial business requirements, ensuring alignment with strategic goals, resulting in clearer and more actionable requirements.
- Collaborated with UX/UI designers using Visio to create user personas and low-fi mock-ups, ensuring design alignment and securing full design approval within a short timeframe, helping to speed up the project timeline.
- Coordinated UAT sessions with users, ensuring most user scenarios were covered and issues were resolved before launch. Resulted in noticeable improvements in user satisfaction.

- Monitored post-launch performance, capturing user feedback to refine and implement 5+ system enhancements within 3 months, leading to stronger user engagement and system usability.

Key Achievements:

- Improved requirement clarity by leading stakeholder interviews and workshops across multiple locations, ensuring the digital platform aligned with strategic goals and user needs.
- Boosted user engagement post-launch by gathering feedback, identifying key experience gaps, and implementing platform enhancements to better support transactions and onboarding.

JUNIOR BUSINESS ANALYST | ESAMI NIG.LTD (IT CONSULT.)

Jan 2020-Dec 2021

- Assisted Senior Business Analysts create the Business Requirements Document in MS Word, working with stakeholders to align system needs and improving billing accuracy.
- Worked with internal teams to support the creation of reporting tools that helped identify billing issues early and improved customer experience.
- Collaborated with QA teams to define test cases and support UAT, ensuring the system met functionality and performance standards, resulting in high user satisfaction.
- Assisted with change management by preparing training materials and conducting sessions for internal teams, which helped speed up system adoption post-launch.
- **Key Achievements:**
- Supported senior analysts in capturing and documenting stakeholder requirements, contributing to a Business Requirements Document that led to improved billing accuracy.
- Assisted with user training and prepared onboarding materials, which led to a smoother transition and quicker system adoption for internal teams.
